

PRASCO FOOD PROCESSING CENTER

FACTS ABOUT HUNGER

Approximately 800 million people worldwide are hungry.

The cost of food worldwide has increased, making it harder for families in poverty to survive.

PRASCO FOOD PROCESSING CENTER

In response to this growing need and with the generous support of Prasco and the Arington Foundation, Matthew 25: Ministries built the Prasco Food Processing Center (PFPC).

The PFPC facility can assemble 5,000 bags – or 35,000 meals – per operational day.

In the PFPC, Matthew 25: Ministries has the capability to package a variety of products including clean water. We are currently packaging a nutritionally enhanced rice-soy blend for approximately 10 cents per serving.

The PFPC allows for quick response to natural disasters, during which nutritious food and clean water are essential components of emergency relief.

PFPC meals have been distributed to the poorest of the poor and disaster victims locally, nationally, and internationally.

A gift of \$25 could feed an undernourished family of four two meals a day for an entire month!
