

BEL FLE MISSIONS HOTEL

ABOUT BEL FLE

Bel Fle Missions Hotel serves a unique, multi-layered purpose in Haiti:

- Provides quality, low-cost, U.S. standard accommodations to mission teams
- Provides employment, skill development, and additional benefits to Haitian workers
- Provides community support to the surrounding area through a clean water distribution program as well as community maintenance and upgrades. After the 2021 earthquake in Haiti, Bel Fle staff members traveled to the disaster area, distributing kits of basic supplies to people impacted. The team supplied more than 500 kits as well as water and tarps to local residents

“Our philosophy regarding international service is that team members must be at 100%...100% of the time. Without access to a safe, comfortable environment where they can recharge, team members will often become ill, reducing by hours or even days the amount of time they are able to devote to their service commitments.”
