POVERTY IN HAITI AND NICARAGUA

Matthew 25: Ministries supports community development projects in two of the poorest countries in our Western hemisphere, Haiti and Nicaragua. In both of these countries, a substantial percentage of the population lives below the poverty line and lacks adequate shelter or facilities, living with overcrowding, poor quality of housing, and insufficient access to sanitation, clean water and more.

RESIDENTIAL DEVELOPMENT PROJECTS

In conjunction with on-the-ground partners, Matthew 25 has sponsored or participated in community development projects in Haiti and Nicaragua that have encompassed:

• Providing new homes and sanitation solutions
• Upgrading existing homes with more substantial construction enhancements such as elevated concrete foundations and weather-resistant paint
• Installing wells, water filters, spigots or hand pumps that provide access to clean drinking water
• Supporting additional amenities and improvements such as the provision of basic furnishings and solar-powered light kits
COMMUNITY DEVELOPMENT PROJECTS

In addition to homes, Matthew 25: Ministries has funded the construction of warehouses, schools, a community center, a feeding center, multi-purpose buildings, and a hydro-electric facility in select communities.

Matthew 25 also sponsors a variety of enrichment and empowerment projects that include agricultural development, animal husbandry, educational enrichment, medical clinics, microenterprise and small business programs that benefit and strengthen families and entire communities.
